## Protective cover (waterproof):

Protective covers for combinations with a small plateau + upholsteries + backs: SHR01

Protective covers for combinations with a large plateau + upholsteries + backs: SHR02

Each piece of furniture is handmade and unique. Deviations to the listed measurements may be caused by:  
1. different upholstery materials (fabric, leather), 2. processing of ticking mats, 3. the pressure to combine individual parts, etc.  
The seat comfort of a sofa type with larger seat depth usually differs from one with lower depth.

## Functional back R02:

The functional back is covered with a waterproofed outdoor fabric. Therefore the furniture can stay outside during bad weather! For the long term Bullfrog recommends to remove the backs to avoid possible waterlogging between the functional backs and the wood of the plateaus.

## Storage:

Due to the practical "modular system", the product line enables a space-saving storage of the elements!

The plateau H02 is weather-resistant and can stay outside all year long!

The seat cushion K02 is easy stackable.

The folded down back cushion 611 enables a space-saving storage!

Functional back R02 also enables a space-saving storage!
